E. H. POLLARD, Kao. The Scheme of a Local Bunk, for this Colony with Branches at the most important places in China, has been in contemplation for a very long period The local and foreign trade in Hongkong and at the open ports in China and Japan has increased so rapidwithin the last few years that additional Hanking facilities are felt to be recuired. The Banks now in China being only branches

of Corporations whose head quarters are in England or India, and which were formed chiefly with the view of carrying on exchange operations between those countries and China, are scarcely in a position to deal satisfactorily with the local trade which has become so much more extensive and varied than in former years. This deficiency the Hongkong and Shanghai Banking Company will supply, and will in fact

assume the same position with relation to this Colony as the Presidency Banks in India, or the Banks of Australia in their respective localities. The Establishment of a Mint in Hongkong. providing an adequate supply of proper currency, will render a local Banking medium essential to carry out its operations, and the almost certain disappearance of the existing Compradoric system (so far as money is concerned) will also ensure Banks becoming in course of time the exclusive medium for the transaction of the monetary operations connected with trade. For the anticipated success of this enterprise there are therefore ample grounds; and the great

prosperity which has attended the working of that the largest profits are obtained by those Public Companies which possess an interested support naturally forms a chief element of remu-

be very great, it is intended to establish a local to do so. Board of Directors there for more effectually meeting the work. As circumstances render it advisable the Bank will establish Branches at other In the distribution of Shares Hongkong and

Victoria, Saturday, 15th October, 1864 For Iloilo Pancy Island, Philippines. Observations on the Nanigation of the Co ast and Port of Hoito island . By Nicolas Loney, Esq. Her Mojesty's Vico

Vessel bound from Manila, or from parts to the Northwards, may, during the N. B. mondoon, safely proceed towards Ilnilo by the Maricaban passige between Inizon and Mindoro and through the chain of islands off the N. O. coast of Panay. For th's route, the charts of the Spanish "Commission Idrografica." compiled by Don Claudio Montere in 1857, would be useful. After passing Tablus and Romblon (which latter island possesses an excellent harbour much frequented by coasting vessels as a port of refuge and fer obtaining supplies,) steer for the group of small islands, called collectively the Silanga, lying off the N. W. of Panay, a good mark for which is the high conical island called Pan de Azucer or Sugar-loat which is visible from a great distance. It approaching these whinds during the N. P. monsoon vessels should pass between the islets of Jintotolo and Zapato-niayor and during the S W. monsoon more in downrate the Panay short between Clutary and Zanato mewir. After lea ving the Zapato the course is to the south of the Gigantes and the channel through the group of is a ris is general entered between Sicogon un Calaguan from whence the route is confinued between Unlebre and the main Pan de Azucar and Malanguban inside Yghon Bolabadiangan und ween these island there is sa's unahorage. The at all times and at ...

Estencia affords excellent unchorage and shelter between these islands there is safe unchurage. The Estancia affords executent anchorage and slielter at all times, and at Apiton opposite Y guhanham there is also good nuchorage in both monagons. In the S. W. m nsom there is safe suchorage between Panthe Azucar and Sobrero islands and in the bay of Malagobness. In the N. E. monsoon in addition to the Estancia and Anitou there is good anchorage under Pan de Azucar, in the small bay or intend looking S. R. At Bacaum, or La Conception, is the residence of the Commandant of the district and from bence assistance and supplies may be had, if needed and at the place marked Apiton (Aguada) on the charts good water is eas ly obtainable.

The broader channel between the islands Panay and Negros although apparently good and though formerly adopted by several ships bound to Hollo is now found not to be safe, there being large patches of shoal water with coral, imperfeetly surveyed, extending off the Batayan and | ned in Manila. Negros shore. Versels have accusionally touched in coming through this passage and it should not therefore be taken. After pasing Tagubanhan and Apiton, and emer-

ging into the broad channel between Panny and Negros the best course is to steer direct for the highest land visible on the island of Guamaras care being taken to clear the Popias rocks, which lie some distance off the shore

to considerable dist nce. The lead is a good guide through the Siete guous islands of Negros.

and Guimaras is not good. On passing the Peca- veral steam mills for crushing cane have recently selated pavement without coment, to which their hunta upon the Confederate cause could only be dos, the south shore should he kept on board, been erected. Very productive land in good po- armies may be likewed. Here are it lew specimen the prolongation of the war. My belief is that the to avoid the short water on the Punky side sitions, is to be had; labour is not scarce; con- cases which will reveal of what stuff Orant's army superiority of morals possessed by Johnston's army When the fort, which is half a mile to the west voyance of produce by sea to the Iloilo market is of the river Hoilo, bears W.
